ACCORDING to the annual report o Postmaster General Wilson the incom of the Department has falien short of the expenditures by nearly \$90,000,000 within the past eleven years. The shortage for the last fiscal year is given at \$8,127,088. Of course, while this condition lasts penny poetage is out of the question, but it is certainly possible to conduct the postal business in such a way as to make the Department selfsustaining. The amount of second-class matter, for instance, which was handled during the past year, was 349,000,000 pounds. The transportation of this cost eight cents a pound, while the postage venue from it was only eight and a half mills a pound, causing a joss or transportation eione of nearly \$25,000,-000. This is not business, and there is no sufficient reason why the Government should continue it.

FARMERS AND VILLAGERS,

FATHERS AND MOTHERS

SONS AND DAUGHTERS, FOR

ALL THE FAMILY.

With the close of the Presidential campaign The Tribune recognizes the fact that the American people are now anxious to give their attention to home and business interests. To meet this condition, polities will have far less space and prominence, until another state or National occasion demands a renewahof the light for the principles for which The Tribune has labored from its inespition to the present day and won its greatest victories.

Every possible effort will be plt forth and money freely spent to make The Weekly Tribune pre-unionally a National Family Newspaper, interesting, instructive, entertaining and indispensable to each member of the family.
